PROFESSIONAL PROFILE Front End Developer with a degree in Systems Analysis and Development and a strong background in Law. Practical experience building modern interfaces with React and robust systems using Java and Node.js. I combine logical-analytical thinking with the ability to translate complex business rules into code—a highly valued differential in sectors such as LegalTech and ERP development. Advanced English proficiency (C2) and a solid foundation in algorithms and data structures.

TECHNICAL SKILLS

- **Front-end:** React, JavaScript (ES6+), HTML5, and CSS3.
- **Back-end & Cloud:** Node.js, Java, RESTful APIs, and AWS fundamentals.
- **Tools & DevOps:** Git, GitHub, automation scripting, and Microsoft environment management.
- **Fundamentals:** CS50 Harvard (Computer Science) and advanced programming logic.

DEVELOPMENT PROJECTS

Nexus – Commercial Management ERP System

- Developed a native desktop ERP system for Windows focused on offline inventory, sales, and order management.
- Built the entire application architecture using React and Electron, working end-to-end: from UI design to implementing complex business logic and writing comprehensive technical documentation (README) on GitHub.

DopamineFocus – Gamified Productivity Tool

- Created a desktop application designed to help maintain focus during intensive study or work sessions by minimizing digital distractions.
- Implemented gamified features, including a reward system and task sorting functionalities.
- Structured data persistence logic and developed an engaging user interface (UX) using JavaScript and modern front-end technologies.

PROFESSIONAL EXPERIENCE

Legal Intern | Regional Development Bank of the Far South (BRDE) (2025 – 2026)

- Drafted emails, wrote procedural summaries, and assisted with the daily legal routines of the Legal Department (GEJUR).
- Managed and organized corporate data using spreadsheets, alongside providing operational supervision for an intern team.

IT and Legal Intern | Federal Court of Santa Catarina (JFSC) (2022 – 2024)

- Developed scripts to automate routine tasks and software installations, significantly optimizing the team's workflow.
- Provided specialized technical support for Microsoft environments and maintained network infrastructure.
- Managed legal deadlines and drafted both technical and legal documents.

Administrative Assistant | Orcali / IPREV (2019 – 2021)

- Managed structured data in spreadsheets and provided support in team supervision.

ACADEMIC BACKGROUND

- **Associate Degree in Systems Analysis and Development** | Estácio de Sá (2023 – 2025)
- **Bachelor of Laws (in progress)** | UNIVALI (2019 – 2026)

COURSES & CERTIFICATIONS

- CS50: Introduction to Computer Science – Harvard University (2024).
- Game Development – Digital Innovation One (2024).
- Full Stack Web Development – Digital Innovation One (2023).
